| Weight                 | 60 g                                    |
| Fuel                   | Suitable Re-fill                        |
| Hours of use           | Approx. 20 minutes per Suitable Re-fill |
| Flame temperature      | 1300°C Blue flame                       |

### Warning:

- Read instructions before use.
- Only use Suitable Re-fill or similar product.
- DO NOT ignite or use near an open flame, heater, furnace, or combustible material.
- DO NOT touch the nozzle cover during use, or before sufficient time has passed for cooling.
- Always be sure the unit is cool, and the lighter removed, before storing.
- Store properly when not in use. Switch the safety lock to the locked positions. Keep in a dry place, out of the reach of children.
- DO NOT attempt to readjust or repair. The MICRO-JET unit is not user serviceable.
- DO NOT use continuously for more than 5 minutes.
- The torch flame is almost invisible in daylight or in strong light. Use with care.

## How To Use EZ-TORCH

### Ignition Sequence

- 1.1 Remove the upper body, then place the Suitable Re-fill into the main body.
- 1.2 Slide the two halves of the body back together. (Refer to figure).
- 1.3 Switch the safety lock to the unlocked position.
- 1.4 Slowly press the ignition button to the maximum point.
- 1.5 The EZ-TORCH is now fired up and ready to use. (**NOTE:** If no flame appears, adjust the regulator on the Suitable Re-fill and press the ignition button again.)

### Note:

- 2.1 As the gas in the lighter is consumed, the regulator will need to be adjusted periodically to ensure a proper flame.
- 2.2 When the ignition button is released, there will be a short delay before the flame is completely extinguished.
- 2.3 When the EZ-TORCH is not in use, remove the Suitable Re-fill.

### Features

Piezo electronic ignition system with safety lock  
 Power by Suitable Re-fill: inexpensive and readily available  
 Replacement cartridge instantly offers 20 minutes of continuous use  
 Flame temperature up to 1300°C (2500°F)
